**Release Plan – NGM & Spotlight Stock Market** 

## Elasticia upgrade 21-24 April, 2023

## Elasticia upgrade 21-24 April, 2023

RELEASE PLAN

#### System version upgrade for NGM & Spotlight Stock Market

A new version of the Elasticia trading system will be rolled out for NGM and Spotlight Stock Market. The roll out will take place during the weekend 21-24 April, 2023. The first trading day in the new version will be Monday 24 April, 2023.

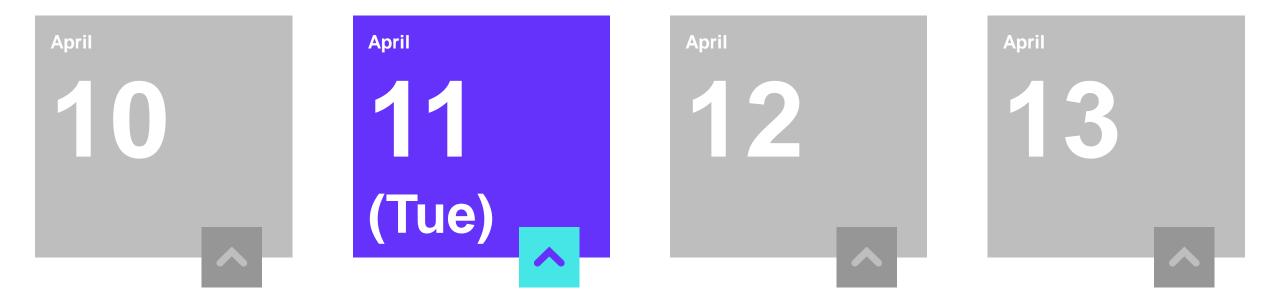

The intended audience for the information presented here is:

- Elasticia integrators
- NGM and Spotlight members
- Market Data Vendors

**IMPORTANT**: BX Swiss is scheduled for a system release roll out during the weekend 5-8 May, 2023. The details on the BX Swiss release will be communicated separately.

## Actions required prior to release weekend

RELEASE PLAN

#### DEADLINE

Last day to send the following information to <a href="mailto:support@ngm.se">support@ngm.se</a>

- Contact details for the release weekend (all participants)
- Confirmation on successful integration testing (integrators)

## **Release weekend overview**

RELEASE PLAN

#### Markets close

After market closing the normal instrument updates will take place, and then the exchange will be shut down.

#### Upgrade

Participants upgrade their systems and confirms to <u>support@ngm.se</u> the status of their upgrade no later than CET 14:30.

#### Decision

Reserved for roll back.

**Go Live** First day of trading in the upgraded system.

## **Major changes**

ELASTICIA UPGRADE 21-24 APRIL, 2023

	Description						
Automatic Site Failover	<ul> <li>Improved site failover, and repeatable order, quote and trade operations.</li> <li>Site failover without manual intervention</li> </ul>						
	<ul> <li>Repeatable (idempotent) order, quote and trade operations as a faster alternative to full snapshot recovery in site failover.</li> </ul>						
Support for FIX Classic	<ul> <li>FIX Classic (tag-value) is available as message encoding, in addition to FIX FAST.</li> <li>Same FIX protocol and messages, only different encoding</li> <li>Note: bandwidth requirements will be higher for FIX Classic compared to FIX FAST</li> </ul>						
Quote On Demand	<ul> <li>New functionality: Quote on Demand</li> <li>Order-initiated private automatic auction outside central limit order book (CLOB), with optional order book sweep.</li> <li>Quote request sent to market makers</li> </ul>						
Nordic Growth Market

#### **Growth Market**

## **Testing required prior to launch**

ELASTICIA UPGRADE 21-24 APRIL, 2023

#### System version upgrade

Integrators must confirm successful testing of their systems to <u>support@ngm.se</u> no later than Tuesday, April 11, 2023.

All production participants must test and verify their systems provided by their integrators prior to launch.

Information on the available test systems, including information on scheduled events taking place in the test systems is described here:

https://www.ngm.se/en/the-exchange/technical-documentation/elasticia-2-0-test-system.

## Actions required prior to launch

ELASTICIA UPGRADE 21-24 APRIL, 2023
